LED Mirrors

Our LED mirrors combine modern technology with classic design, delivering high-quality products that balance function and elegance for our customers.

Mirrors and mirror cabinets are available with the following features:

- 5mm HD copper-free silver mirror with anti-oxidation, anti-blackening, and vibrant reflectiveness
- Ultra-thin profile fits perfectly to the wall
- Bright energy-saving waterproof LED strip, 90+ CRI, 50,000+ hours
- Aluminum/stainless steel metal frames offered in multiple on-trend color/finish options and shapes
- Meets IP44, UL, ETL, CE, and SAA standards
- Multi-functional light with color temperature adjustment, brightness dimming, and setting memory functionality
- Defogging with gentle heat keeps your mirror dry and clear
- Smart-touch sensor switches
- Integrated Bluetooth technology
